National Music Centre. Canada

Sector

Hospital

Client

Thermal Systems, Calgary, Alberta

Location

National Music Centre, Calgary, Alberta. Canada

Material

Bemo USA, 0.9 400/65 colour coated aluminium

Project Value

£12.424.50 (C\$22,822.63)

Status

Complete... with a very satisfied customer

Scope of works

Client requirements were to create a watertight flashing/coping detail covering the curved cavity between the outer and inner skins, a distance of 1400mm using parallel colour coated sheets.

Using a tapering system developed by M.R.(Site Services)Ltd the sheets were modified to requirements using the welding system developed by MR whereby no distortion occurred and no repainting was required.
